GREEN TIRE TRUCKS

Technical Specifications

Spadone's Green Tire Trucks are designed for the most demanding applications. Since 1917, Spadone has manufactured rugged and dependable equipment for the tire and rubber industry. Spadone's Green Tire Trucks are designed to yield a long lifespan at a reduced cost. With a broad range of options and configurations, Spadone's Green Tire Trucks are designed with the highest production capability in mind.

Features

Green Tire Trucks

- Conserve floor space utilizing vertical storage
- Reduce handling time and facilitate drying, cooling and processing
- Protect materials from damage, dirt and dust
- Rugged and dependable
- Single and double-sided available
- Various seat sizes for Passenger and Truck tires

Radial Green Tire Seats

- "Seats" prevent distortion of the tire during handling and storage process

- The unique design of the seat and the non-stick plastic material facilitates easy loading and unloading of the green tires.

- Uniformity is protected from the tire building station to the curing press.

- The contour of the seat conforms to the contour of the green tire and thereby provides uniform support for the shoulder through the entire 360°

Typical Applications

- Material handling and storage of green tires in production facility
- Protects uniformity of green tires from the tire building station to the curing press
